

# TECHNICAL DATA SHEET

## MAHA

- **Product Name** : Maha
- **Type** : Adjuvant
- **Appearance** : Pale Yellow Liquid
- **Odour** : Characteristic
- **Density** : 1.20-1.30 g/ml
- **pH** : 6.0-6.5
- **Composition** :

Ingredients	% w/w
Sodium Acetate	50.8 %
Stabilizer	0.5 %
pH Indicator	0.2 %
Solvent	Q.S.

## MAHA

- **Benefits** :
  - ▶ pH Harmonizer and Nutrient Mobilizer
  - ▶ Resolves alkaline water challenges by harmonizing pH (6-6.5)
  - ▶ Optimal nutrient absorption for healthier, high-yield crops
  - ▶ Robust root development and disease risk reduction
  - ▶ Promotes sustainable farming practices
  - ▶ Innovative solution for modern agriculture
  - ▶ Paves the way for a more abundant and eco-friendly harvest
- **Dilution Ratio** : For foliar application, dilute 100 ml to 250 ml of MAHA in 200 liters of water. When combined with agrichemicals, fertilizers, micronutrients, and biostimulants, this solution promotes healthy plant development.
- **Storage and Handling** : Store in a cool, dry place away from direct sunlight. Keep the container tightly closed when not in use.
- **Safety Information** : This product is safe for humans and pets. Avoid contact with eyes or skin. In case of contact, rinse thoroughly with water.
- **Regulatory Compliance** : This Adjuvant is compliant with the standards set by the Department of Agriculture for labeling and packaging.
